3: 1.0 Introduction

1.1 Executive Summary

BTCM Pro is a **state-of-the-art cloud mining platform** that makes cryptocurrency mining simple, affordable, and profitable for everyone. We believe that anyone can benefit from mining—even without expensive hardware or technical expertise.

1.2 Mission

> "Democratizing crypto mining—where anyone, from anywhere, can start mining with just a $10 investment."

1.3 Vision

To build a global community where small and medium investors can mine safely, transparently, and with fair returns. Target of 1 million active users by 2028.

1.4 Why BTCM Pro?

Traditional Mining	BTCM Pro
Expensive hardware required ($2,000+)	Starts at $10
High electricity costs	No electricity costs
Technical knowledge required	One-click mining
Noise and heat problems	Completely silent
Single point of failure	Distributed system

4: 2.0 Problem Statement

2.1 Current Mining Industry Problems

The cryptocurrency mining industry currently faces the following problems:

2.1.1 High Entry Barrier

- An ASIC miner (e.g., Antminer S19) costs $2,000 - $5,000
- Building a GPU rig costs $1,500 - $3,000
- Average people cannot afford this investment

2.1.2 Electricity Costs
- One ASIC miner consumes $300-500 in electricity per month
- Electricity costs $0.10-0.15 per unit
- Most of the profit goes to electricity bills

2.1.3 Technical Complexity
- Need to configure mining software
- Need to know overclocking, undervolting
- Need to select mining pools
- Wallet configuration required

2.1.4 Scam Impact
- Many fake cloud mining sites exist
- People have lost trust due to Ponzi schemes
- Lack of transparency is a major problem

2.2 Market Opportunity

Statistic	Value
Global Crypto Mining Market Size (2025)	$2.5 Billion
Estimated Growth Rate (CAGR)	12.8%

5: 3.0 Solution

3.1 BTCM Pro Solution

BTCM Pro brings a **complete solution** to these problems:

```
┌──────────────────────────────────────────────────────────────────────────────────────────────────────┐
│                                    BTCM Pro Solution                                                 │
├──────────────────────────────────────────────────────────────────────────────────────────────────────┤
│  📌 Low Investment    →    Start from just $10                                                        │
│  📌 Easy to Use       →    One-click mining                                                           │
│  📌 Transparent       →    Real-time updates                                                          │
```

```
│ 📌 Secure        →   Firebase + 2FA + KYC        │
│ 📌 Profitable    →   2.5% - 4% daily return      │
│ 📌 Referral      →   $10 bonus per referral      │
└──────────────
```

```
        ┌──────────────────────┼──────────────────────┐
        │                      │                      │
┌───────▼───────┐      ┌───────▼───────┐      ┌───────▼───────┐
│ Mining Pool 1 │      │ Mining Pool 2 │      │ Mining Pool 3 │
│  (F2Pool)     │      │  (ViaBTC)     │      │  (Antpool)    │
└───────────────┘      └───────────────┘      └───────────────┘
```

4.2 User Flow

Step 1: Sign Up
- Register with email and password
- $200 bonus automatically credited

Step 2: Invest
- Select package (starting from $10)
- Hashrate increases after investment

Step 3: Start Mining
- Click on "START MINING" button
- Automatic mining begins

Step 4: Collect Income
- Income added every 5 seconds
- Withdraw anytime

Step 5: Withdraw
- Minimum $10
- Fee 2%
- 0.1-24 hour processing

4.3 Hashrate Calculation

```
Hashrate (TH/s) = Base 10 TH/s + (Investment Amount × 0.5 TH/s)

Example:
- $0 investment = 10 TH/s
- $100 investment = 60 TH/s
- $500 investment = 260 TH/s
```

4.4 Daily Income Calculation

```
Daily Income = Hashrate × 0.0192 × (BTC Price Adjustment Factor)

Income every 5 seconds = Hashrate × 0.00001111
```

7: 5.0 Packages & Returns

5.1 Available Packages

Package	Minimum Investment	Daily Return	Total Return	Duration
Starter	$20	2.5%	150%	20 days
Basic	$51	3.0%	180%	20 days
Premium	$101	3.5%	210%	20 days
Pro	$200	4.0%	240%	20 days

5.2 Return Examples

Starter Package ($20 Investment)
```
Days 1-20: Daily income $0.50
Total Income: $10.00
Total Return: $30.00 (Principal + Profit)
Net Profit: $10.00 (50%)
```

Pro Package ($200 Investment)
```
Days 1-20: Daily income $8.00
Total Income: $160.00
Total Return: $360.00 (Principal + Profit)
Net Profit: $160.00 (80%)
```

5.3 Compounding Effect (Reinvestment)

```
Initial Investment: $100
Duration: 3 months (3 cycles)

Cycle 1: $100 → $210 (in 20 days)
```

Cycle 2: $210 → $441
Cycle 3: $441 → $926

Total Profit: $826 (826% return!)
```

---

### **8: 6.0 Tokenomics**

#### 6.1 BTCM Token Overview

BTCM Pro plans to launch a utility token that can be used for all platform activities.

| Metric | Value |
|---|---|
| Token Name | BTCM |
| Symbol | BTCM |
| Blockchain | BNB Smart Chain (BEP-20) |
| Total Supply | 100,000,000 BTCM |
| Contract Address | (To be announced soon) |

#### 6.2 Token Distribution

```
┌──────────────

|----------|----------|----------|---------|
Mining Rewards	40%	40,000,000	5 years
Team & Advisors	25%	25,000,000	2-year lock, then 24-month vesting
Ecosystem Fund	20%	20,000,000	Community governance
Sales & Marketing	12%	12,000,000	6-month lock
Community Airdrop	3%	3,000,000	Unlocked at TGE

9: 6.0 Tokenomics (Continued)

6.4 Token Utility

Use	Description
Mining Boost	Increase hashrate with BTCM
Fee Discount	Reduce withdrawal fee by 50% with BTCM
Governance	Vote on platform's future decisions
Staking	Earn passive income by staking BTCM
Premium Features	Exclusive packages for BTCM holders

6.5 Token Emission Rate

The 40% tokens for mining rewards will be emitted at the following rates:

Period	Emission (BTCM)	Emission Rate
Year 1	15,000,000	30%
Year 2	10,000,000	20%
Year 3	6,000,000	12%
Year 4	5,000,000	10%
Year 5	4,000,000	8%

6.6 Burn Mechanism

BTCM Pro will implement a **deflationary mechanism**:

```
1% BTCM will be burned per transaction:

Example:
- $1,000 transaction → $10 worth of BTCM burned
- Burned tokens are permanently removed
- Total supply will keep decreasing
```

- Token value will increase in the long term
```

#### 6.7 Valuation Model

| Metric | Year 1 | Year 2 | Year 3 |
|--------|--------|--------|--------|
| Estimated Users | 50,000 | 150,000 | 300,000 |
| Estimated TVL | $5M | $20M | $50M |
| Token Price (Estimate) | $0.05 | $0.15 | $0.50 |
| Market Cap | $5M | $15M | $50M |

---

### **10: 7.0 Referral Program**

#### 7.1 How It Works

BTCM Pro's referral program is a **two-level system**:

```
                ┌──────────────────────┐
                │     User A           │
                │   (Referrer)         │
                └──────────────────────┘
                         │
                         ▼
                ┌──────────────────────┐
                │     User B           │
                │   (Level 1)          │
                └──────────────────────┘
                         │
                         ▼
                ┌──────────────────────┐
                │     User C           │
                │   (Level 2)          │
                └──────────────────────┘
```

7.2 Referral Bonus Structure

Level	Bonus	Condition
Level 1	$10	Direct referral
Level 2	$5	Indirect referral
Trading Volume	10%	Referral's trading commission
```

7.3 Referral Link Format

```
https://btcm-pro.github.io/btcm-pro/?ref=XXXXXX

Where XXXXXX = User's unique referral code
```

7.4 Example Income Calculation

```
You brought 10 Level 1 referrals:
10 × $10 = $100 bonus

Each referral invested $100:
10 × $100 × 10% = $100 trading commission

Total Referral Income = $200
```

7.5 Referral Leaderboard

Monthly competition for top referrers:

Rank	Prize
1st Place	$1,000 + Premium Package
2nd Place	$500 + Basic Package
3rd Place	$250 + Starter Package
4th-10th	$100 bonus

11: 8.0 Technology Stack

8.1 Front-End

Technology	Use
HTML5	Structure
CSS3	Design & Animation
JavaScript (ES6+)	Interactivity
Firebase SDK	Backend connection

QRCode.js	QR code generation
Font Awesome	Icons
Google Fonts	Typography

8.2 Back-End (Firebase)

Service	Use
Firebase Authentication	Email/password login
Cloud Firestore	User data, transactions
Firebase Security Rules	Data security
Firebase Hosting	Web hosting (optional)

8.3 Third-Party Integrations

API	Use
CoinGecko API	Real-time BTC price
Blockchain.com API	Transaction verification (planned)
Coinbase Commerce	Crypto payments (planned)

8.4 Hosting Architecture

```
┌──────────────────────┐

│  (Front-End)    │
└──────────┬──────────┘
           │
           ▼
┌──────────────────────┐
│   Firebase      │
│  (Back-End)     │
└──────────┬──────────┘
           │
           ▼
┌──────────────────────┐
│  Cloud Functions │
│  (Planned)      │
└──────────────────────┘
```

12: 9.0 Security Features

9.1 Security Layers

BTCM Pro uses a five-layer security system:

```
┌──────────────
```

13: 10.0 KYC & Compliance

10.1 Why is KYC Required?

BTCM Pro has made KYC mandatory for the following reasons:
1. Anti-Money Laundering (AML)
2. Counter-Terrorism Financing (CTF)
3. User Verification - Preventing fraud
4. Increased Withdrawal Limits

10.2 KYC Levels

Level	Information Required	Daily Withdrawal Limit
Level 0	Email & password	$50
Level 1	Name, address, NID	$500
Level 2	Passport, utility bill	$2,000
Level 3	Source of funds	$10,000

10.3 Required Documents

Level	Documents
1	National ID Card, Proof of address, Selfie with ID
2	Passport (if applicable), Utility bill, Bank statement
3	Source of income document, Tax return (if any)
